

# Adoption is Another Option

“Adoption is not what it used to be...”

- ♥ NOW, women choose the family THEY want to be the parents for their child.
- ♥ NOW, women determine how much they want to be involved in the adoption and decide the amount of openness they want after the placement.
- ♥ NOW, birth parents can enjoy ongoing contact with the child through letters, pictures, videos, phone calls or visits.
- ♥ NOW, counseling is available before the baby is born and can continue for as long as birth parents choose after their baby is placed for adoption.
- ♥ NOW, counseling is also available for the extended family, if requested.
- ♥ NOW, medical, legal and counseling expenses can be paid at no cost to the birth parents.

OPEN ADOPTION is based on the belief that a child can never have too many people loving him or her.
